Safety Minute—Distracted Driving Awareness

April is Distracted Driving Awareness Month.

If something requires your hands, your eyes, or your attention while you're driving, it's a distraction.

There are three main types of distractions:

Visual: taking your eyes off the road

Manual: taking your hands off the wheel

Cognitive: taking your mind off driving

Distractions can include:

• Cell phone use

- Texting (even if you're using voice commands)
- Taking or making phone calls (even hands-free)
- Recording videos
- Using social media
- Checking or sending emails

• Passengers and pets inside the vehicle

• Events outside the vehicle

• Eating

• Adjusting your GPS, music, podcast or audiobook

• Using your vehicle's touchscreens

• Handling dispatching devices and mobile data terminals

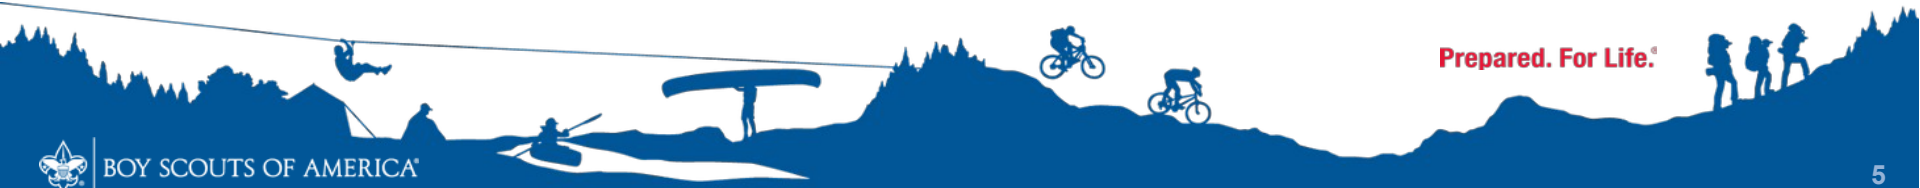

These habits may be common, but they're still distracting and dangerous for you and everyone else on the road.

Have a second adult with you on all Scout trips to handle the other issues.
